How Clear Is Your Picture of Mom's Care Needs?

Twelve quick questions about what you know. At the end: what you know, what's still unclear, and what to ask.

Answer yes, no or not sure. This checks how complete your picture is. It doesn't measure Mom, and nothing here means she is unsafe or needs a particular kind of care.

1. Do you know what Mom can do on her own this week, as opposed to before the hospital?

What this doesn't do

It counts what you know, not how Mom is doing. A low count means there are things to find out, and most of them are a phone call or a few days of watching away.
