Mom's Health Information and Helpers, in One Place

A one-page inventory of the diagnoses, medications, doctors and helpers you already know about, and the blanks.

The medication list is on the fridge, the doctor's number is in Mom's address book, and your sister is the one who knows who drives her on Thursdays.

This page doesn't ask you to understand any of it. It asks where each thing is, how recent it is, and who has it. Fill it in with Mom if you can. Most of it is hers.

WHAT TO COLLECT	WHERE IT IS	ITS DATE	WHO HAS IT
Her diagnoses and ongoing conditions, as a list			
Medication list: prescriptions, over-the-counter items, vitamins and supplements			
Treatments or therapies she has now, and their schedule			
Her doctors and specialists, with phone numbers			
Her pharmacy			
Upcoming appointments			
Family, friends and neighbors who help, and what each one does			
Any paid help she uses now, and how to reach them			
Notes on any falls during the past year			
Notes on changes the family has noticed during the past year			
What she has told you about her care preferences, in writing			
Names of local care providers you've collected so far			

What's missing, and who will ask for it

Anything above with an empty line. Put a name next to each.

FOR EXAMPLE No list of her medications in one place. Karen will ask Mom whether they can write one out together on Sunday.

How to use it

- Write the date on each item: when the list was written or last updated. If it has no date, write “undated.”
- Don't rewrite or summarize a record here. Just say where it is.
- Ask Mom before you copy or share anything of hers.
- Bring this page to her next appointment, if she'd like you there.

What this page doesn't do

It doesn't explain what any record, diagnosis or instruction means. If you read something you don't understand, that's a question for the person who wrote it. Nothing here is medical, legal, financial or tax advice.

Ready for the next step?

You know where Mom's information is, who helps her, and which lines are still blank. The care interview uses what you've collected: it walks you through her situation area by area and turns your answers into a Family Care Profile you can bring to any care conversation.
